

78th Street Heritage Farm Advisory Team Meeting – Online Chat

Thursday, July 18, 2024, 4:00pm to 6:00 PM
Luke Jensen Sports Park in the LJSP Bud Van Cleve Community Meeting Room, and
Virtual Meeting via Microsoft Teams

Amy Arnold	Lynde, can you confirm you can see the Chat?
Lynde	I can see the chat. I think it's frozen again.
Amy Arnold	We're having connection issues in the room. We may lose connection or the meeting may freeze. I'm aware of the issue and apologize for any inconvenience this may cause during the meeting.
Heather Tischbein	The sound keeps coming on and off as a guest.
Amy Arnold	I apologize Heather.
Heather Tischbein	Glad to be here. Though the connectivity is not that good in terms of sound.
Amy Arnold	All if you're just joining the meeting, note that we've been having technical difficulties in the room and may lose connection. Please be patient with us as we work through these issues.
David Stipe	Amy can we work with Tim F. to get 6 microphones for the conference room? Is it very difficult to hear many of the in room comments.
Amy Arnold	I'll add that to my list of things to do after the meeting David.
David Stipe	Thanks
Amy Arnold	Heather – please type your question/comment into the Chat. We cannot hear you in the room.
Heather Tischbein	OK... now it's working. In terms of the comp plan climate element work, agriculture has come up in the Greenhouse Gas Emission inventory as in the top three of "emitters", and with some recognitions of AG as a carbon sequestration strategy. Has community planning been in contact with you

about the role HF might play in the climate element policy recommendations for the comp plan update?
Does it make sense to make an inquiry with them about this?

David Stipe

We have been asked to participate in some form but it has largely been focused on tree canopy.

Heather Tischbein

I will talk to you about this David. Thank you.
