Variance in ballots counted: Fifteen voters were discovered to have failed to include their ballot in the secrecy envelope they returned, they returned a ballot from a previous election or they returned two ballots in one secrecy envelope and the two ballots were voted differently and therefore not counted. Voter was given credit prior to the opening of their ballot. Voter could not be identified once their secrecy envelope was separated from their affidavit envelope. Four additional ballots were counted where a voter returned two ballots in one secrecy envelope and the Ballot Inspection Board failed to detect the two ballots. The page of one MyBallot ballot was separated in processing and was duplicated as two separate ballots which were both counted. Seven voters who cast a valid ballot in the election have not yet been given credit.
