X Yes   ☐ No

Are both the Overall ballot reconciliation and total Ballot category discrepancy cells showing zero? **There is a variance of 11 between the number of voters credited and the number of ballots counted. This variance is the result of 11 voters returning an ballot affidavit envelope containing something other than a voted ballot. The 11 voters could not be identified because their ballot affidavit envelope was removed prior to the opening of their ballot secrecy envelope. They had already been given credit for voting.**
