

Nurse-Family Partnership

NOW ENROLLING MULTIPAROUS MOTHERS

CHANGING LIVES FOR GENERATIONS

Nurse-Family Partnership pairs moms with a registered nurse to support them as they create better futures for themselves and their babies. Over more than four decades, research consistently has proven that Nurse-Family Partnership succeeds at its most important goals: keeping children healthy and safe and improving the lives of moms and babies.

Nurse-Family Partnership works by having specially educated nurses regularly visit moms-to-be, starting early in the pregnancy and continuing through the child's second birthday.

The expectant moms benefit by getting the care and support they need to have a healthy pregnancy. At the same time, new mothers develop a close relationship with a nurse who becomes a trusted resource they can rely on for advice on everything from safely caring for their child to taking steps to provide a stable, secure future for them both.

SERVING MULTIPAROUS MOTHERS

Nurse-Family Partnership will now serve multiparous mothers in selected communities throughout the US. The new work is designed to lay the groundwork for ensuring that NFP nurses can achieve similar outcomes with vulnerable women who have had previous live births.

ELIGIBLE MOTHERS

- Are pregnant
- Meet income requirements
- Live in an area where Nurse-Family Partnership is available

HOW MUCH DOES IT COST?

Nurse-Family Partnership is FREE to eligible women.
